

Virtual Light The Night

This year we will bring light to the darkness of cancer by celebrating, honoring and remembering those touched by cancer and by rallying VIRTUALLY as a community in support of The Leukemia & Lymphoma Society's mission. Now is the time for us to be bigger and more powerful than we've ever been before.

Be The Voice That Speaks Up... Be The Hand That Reaches Out...

BE THE LIGHT THAT CURES CANCER.

On event night, we will all join together on our virtual platform to engage with each other and with our highly engaging activities!

You can expect our event to include the key Light The Night activities you have come to know and love including the Circle of Survivors, the Remembrance Pavilion, the Ceremony and so much more!

You will have the ability to explore our event site, as you would an in person event, and engage with all of the activities as you wish. Then we will all join together to watch the emotional and inspiring Ceremony. After the Ceremony, we encourage everyone to take a brief walk in their neighborhood (following all local safety guidelines) and then rejoin us for a social celebration bringing light to our local communities and across social media.

We are exciting to bring you this engaging virtual event and hope you'll join us on event night!

Your Light The Night Team
